

Solar Snake Tray®

Revolutionary hand-bendable stainless steel cable pathway saves on time and installation costs!

Introducing Solar Snake Tray®

Solves Toughest Installations

Solar Snake Tray® is the all-new weather-proof, hand-bendable cable conveyance that quickly and securely carries DC circuitry from solar panels to their terminations. Change directions easily with your own two hands!

MADE IN THE USA

Locks Cable Like A Lobster Trap

Even In A Hurricane

This patented design (lobster trap principle) ensures effortless outdoor cable installation while protecting it from rain, snow or hurricane force winds!

Snake Eyes®

Makes Installation A Breeze

Solar Snake Tray® installs easily with built-in mounting rings, called "Snake Eyes", every four inches and connects together with a single stainless steel connector. No expensive accessories needed!

A Snake Tray® For Every Need

And Now Solar Snake Rack®

Solar Snake Tray® manufactures a wide variety of brackets to interface with any brand of solar panels racks including Snake Tray's® new ballasted all weather Solar Snake Racks®.

Snake Tray[®] Solar Racks

No attachment maintains weatherproof roof membrane and substantially lowers solar installation costs!

Combines all-weather aluminum construction with a self-ballasting design for flat roofs to maintain weather-tight roof membrane because no roof attachment is required.

Snake Tray[®] Solar Rack's wide adjustability secures many solar panel brands and models and protects the panels from hurricane force winds up to 120 miles/hour.

- Roof membrane is never pierced nor compromised for installation. Effective self-ballasting design hold in place for hurricane winds.
- Quick assembly with stainless steel hardware.
- Adjustability allows locked-in fit for most solar panel brands and models.
- Lightweight for easy handling on the roof.

Snake Tray[®] products are covered by one or more of the following patents:
#6637704, #6637165, #6463704,
#6460812, #6449912, #6361000,
#6347493, #6019323, #6347493,
#6449912, #6460812, #5953870,
#5839702, #6926236, #7168212
Other Patents Pending.
